CONTRACT #010511-MRL

MOHAWK LIFTS: your source for lifts, evaporative cooling fans, shop air compressors, battery service equipment, wheel service equipment, vehicle wash systems, work benches, vehicle service floor jacks.

COOPERATIVE PURCHASING

“A Government to Government Procurement Service Available Nationwide”

At its core, NJPA is a Member-driven service cooperative with a Membership now exceeding 30,000. NJPA offers a multitude of products, equipment and service opportunities to education, government and other non-profit entities. Nationally and even beyond we offer Contract Purchasing solutions that enable businesses and organizations to work smarter, bolder and better. NJPA empowers and enables a business and service alliance between buyers and suppliers to drive successful purchasing programs. Locally in Minnesota, NJPA offers Regional Programs for counties, cities and schools that comprise an area known as “Region 5.” We successfully aid in the planning, development and provision of services in a vast array of fields, including technology, curriculum, staff, health, safety and more.

- PARALLELOGRAM LIFTS**
- 36,000-100,000LB CAPACITY
 - 28-48FT RUNWAY LENGTHS
 - ROLLING JACKS AVAILABLE
 - MECHANICAL, HYDRAULIC, AND ELECTRONIC SAFETIES

**HEAVY DUTY
IN-GROUND**

- HEAVY DUTY IN-GROUND LIFTS**
- 55,000-99,000LB CAPACITY
 - HIGH PRESSURE, LOW OIL
 - ENVIRONMENTALLY CONTAINED IN CONCRETE VAULT

PRODUCT SUPPORT

For questions concerning Mohawk products such as brochures, CAD drawings, specifications, lift options, or other services including maintenance or repair, contact Mohawk Lifts at 800-833-2006 or 518-842-1431.

HUNTER
Engineering Company

WinAlign® Alignment System

WinAlign fully integrates the functions of the console, sensors and lift into one highly efficient alignment system. WinAlign systems build alignment profits and find other service opportunities.

TCX620HD Heavy-Duty Tire Changer

Combines an efficient electro-hydraulic power system with a unique mount/demount roller mechanism to provide a high performance, compact design machine for servicing heavy-duty, over-the-road truck wheel assemblies.

OCL410 On-Car Rotor Lathe

Bringing machine tool precision to rotor refinishing, Hunter On-Car Lathes increase productivity and reduce comebacks. Passenger-car and medium-duty truck lathe models available.

TCX500 series

Power and speed in a traditional design make these rim clamp tire changers suitable for volume service of all tire and wheel combinations. Class leading power and speed with 110V/220V motor. Other options available. TCX515: Includes Bead Press Arm to aid mounting and demounting. Wheel range of 6 to 26 inches.

WinAlign® Heavy-Duty Alignment System

Hunter's HD system delivers unique alignment features specifically for heavy-duty truck, trailer and bus applications.

- More than 60 axle configurations supported
- No toe lines, cables or "strings"
- Specification database supplied by major manufacturers

RX Scissor Lift

Hunter's RX Scissor Lift is "a must" for service centers with high volume and limited work space.

- 9,000-lb., 10,000-lb. and 12,000-lb. capacities
- Clear access to front and rear
- Optional PowerSlide® auto-lock system controls turnplates and slipplates
- Optional Inflation Station sets tire pressure without cumbersome hoses and gauges

Computerized Vehicle Inspection

Hunter's Inspection Lane executes fast, accurate road-performance inspections in one minute.

- Extensive brake test
- Alignment sideslip meter

Road Force® GSP9700 Wheel Balancer

Hunter's premier wheel diagnostic machine solves vibration and drivability problems with a series of patented tools.

B400T Brake Tester

In a 30-second drive-through test, measures the actual performance of every brake on a vehicle.
